A Way To Love

Changing The World One Random Act of Love At a Time

A Way To Love is a movement that inspires you to change the world one smile at a time. It is a "website foundation" where people can post their random acts of kindness in a video format. This is also a platform where people can post their random acts of love. Such as videos of people throwing Free Hug Campaigns, etc. This is created to inspire people to give love, because we were brought into this Earth to love one another. This movement was founded to help open people's eyes, and make them see that while we are living in the world we need to lend a helping hand and make a difference. This is also a platform where people can upload their stories about how they are making this world a better place. The site is a place where you upload love and inspire other people to give it. A place where no matter how small or how big your act of kindness or love is, you're still making an impact on somebody else life. Our vision is to encourage and inspire people to devote their lives to putting a smile on someone else's face. To help make this world a better place by sharing the love and kindness with your neighbor. To have a worldwide influence on peoples lives to do more by giving back. The videos will inspire more and more people throughout the world to experience the happiness of giving. The cards that you are provided with when you sign up will give you the chance to see how you can really make a difference in the world. Also, all of the work done throughout the year leads to a big event at the end of the year. In addition we are currently holding several scholarship competitions. For example we are in need of a logo and we want fresh new talent to design it therefore, we are holding a contest where students enter their drawings or graphic designs and the winner of the contest will have their logo on our website and t shirts. Seventh HEINEKEN TRANSATLANTIC FESTIVAL

"New explorations in sounds and textures, and some of the smartest, coolest crowds you could hope to amass in this town." - New Times

The Heineken TransAtlantic Festival was created by The Rhythm Foundation, a Miami-based non profit cultural organization in 2003. The Rhythm Foundation is the leading presenter of World Music in South Florida.

Visit www.rhythmfoundation.com for more information.

The Festival explores modern world music from the great cities of the Atlantic rim - Europe, Africa, Brazil, Argentina, the Caribbean, NYC and features artists working in the beautiful collision between traditional rhythms and electronica/DJ culture. The series pays tribute to Miami as a true modern TransAtlantic capital, a crossroads of the Americas and Europe.
