II. Degree Updates and Additions, Tuition and Fees

An application fee of \$50.00 is to be submitted with the Application for Admission. An enrollment fee of \$100.00 is due within ten (10) days after you have signed the Enrollment Agreement. Students applying online must submit the application fee and enrollment fee simultaneously. Tuition and fees for a new student are due on or before the student's first day of class if not incorporated in a financial plan. Continuing students must make arrangements for the payment of tuition and fees prior to the student's first day of class.

Tuition and fees for the 2009 through 2010 academic years are listed on the Enrollment Agreement and on the following page. Books are included in the tuition cost. Please inquire at the bookstore for details on bookstore policy and procedure guidelines. The student is responsible for tuition and fees pertaining to the program's required course of study. The tuition and fees contained in this Enrollment Agreement are subject to change. The per credit hour rate is subject to an increase at least once per calendar year which will increase the total amount for the program. The adjustment to the per credit hour rate may occur before the student begins classes and the student's program will be calculated using the new rate. Any changes to tuition and fees will be published to students.

Students are responsible for payment of tuition and fees according to the schedule listed on the enrollment agreement. Tuition and fees are charged quarterly. The student is never obligated for any charges beyond the quarter in which the student is attending. Tuition and fees may increase annually.

The tuition fees listed do not include the cost of remedial courses that may be required of some students. The catalogue section entitled "Remedial Requirements" describes the criteria required of entering students. If a student's overall entrance evaluations, including scores on placement tests, indicate the need for reading, writing, and/or mathematics remediation, the student will enroll in the courses prior to the credit bearing writing and mathematics courses. Students not meeting the placement requirements will be required to enroll in one or more of the following noncredit remediation courses:

GE011 Basic Writing for College Students
GE012 Basic Reading for College Students
GE013 Basic Mathematics for College Students

Remediation courses do not apply toward meeting the program's degree or certificate requirements.
