
HAVE YOU THOUGHT ABOUT TEACHING?

Would you like to instruct, train and mentor the next generation of creative professionals? Have you ever considered teaching but don't know where to start or what is involved? Are you already an industry speaker who would like to teach on a more formal level?

Teaching is an exciting and rewarding way to shape the future of the creative industries, and may be the next logical step in your career. This one-hour information session introduces professionals to the world of teaching while focusing on answering some common questions such as:

- What qualifications do I need to teach?
- What if I don't know how to teach? Is there training available?
- What is involved? What would I be expected to do?
- What kind of time commitment can I expect?
- Can I still work in the industry and teach part-time?
